## JUNOKRIL

High performance microporous and breathable paint with anti-mould protection. Formulated with acrylic-vinyl copolymers (satin finish) or pure acrylic resins (matt finish) with anti-carbonation properties. Resistant to rain water and permeable to water vapours, allowing moisture and air to be released.

Wide range of tinting bases for optimal performance, colour stability and opacity. Recommended for decorating and waterproofing masonry surfaces such as cement and concrete materials (façades, walls, patios, etc.) and any surface that requires maximum resistance to atmospheric agents and humid environments.

<b>Noche/Night Black</b>	<b>Aguacate/Avocado</b>	<b>Cacao</b>	<b>Siena</b>	<b>Hielo/Ice White</b>
