

## DILUYENTE D-47 - Código - 50019

### SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

**1.1 Product identifier:** 

DILUYENTE D-47 - Código - 50019

Other means of identification: UFI:

UNA0-N0V6-E00T-UGUN

### **1.2** Relevant identified uses of the substance or mixture and uses advised against:

Relevant uses: Thinner for the application of paints and varnishes. For professional users/industrial user only. Uses advised against: All uses not specified in this section or in section 7.3

### 1.3 Details of the supplier of the safety data sheet:

INDUSTRIAS JUNO, S.A. Barrio Sakoni, 10 48950 ERANDIO - Vizcaya - España Phone: +34 944 670 062 - Fax: +34 944 675 832 laboratorio@juno.es www.juno.es

### **1.4 Emergency telephone number:**

### SECTION 2: HAZARDS IDENTIFICATION \*\*

### 2.1 Classification of the substance or mixture:

### CLP Regulation (EC) No 1272/2008:

Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.

Acute Tox. 4: Acute toxicity, Category 4, H302+H312+H332 Asp. Tox. 1: Aspiration hazard, Category 1, H304 Eye Irrit. 2: Eye irritation, Category 2, H319 Flam. Liq. 2: Flammable liquids, Category 2, H225 Repr. 2: Reproductive toxicity, Category 2, H361d Skin Irrit. 2: Skin irritation, Category 2, H315 STOT RE 2: Specific target organ toxicity — Repeated exposure, Hazard Category 2, H373 STOT SE 1: Specific target organ toxicity — single exposure, Hazard Category 1 (Inhalation), H370 STOT SE 3: Specific toxicity causing drowsiness and dizziness, single exposure, Category 3, H336

### 2.2 Label elements:

### CLP Regulation (EC) No 1272/2008:

Danger

### Hazard statements:

Acute Tox. 4: H302+H312+H332 - Harmful if swallowed, in contact with skin or if inhaled. Asp. Tox. 1: H304 - May be fatal if swallowed and enters airways. Eye Irrit. 2: H319 - Causes serious eye irritation. Flam. Liq. 2: H225 - Highly flammable liquid and vapour. Repr. 2: H361d - Suspected of damaging the unborn child. Skin Irrit. 2: H315 - Causes skin irritation. STOT RE 2: H373 - May cause damage to organs through prolonged or repeated exposure. STOT SE 1: H370 - Causes damage to organs (Inhalation). STOT SE 3: H336 - May cause drowsiness or dizziness. **Precautionary statements:** 

\*\* Changes with regards to the previous version

- CONTINUED ON NEXT PAGE -

Date of compilation: 05/12/2011

### DILUYENTE D-47 - Código - 50019

### SECTION 2: HAZARDS IDENTIFICATION \*\* (continued)

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P280: Wear protective gloves/face protection/protective clothing/respiratory protection/protective footwear.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P308+P313: IF exposed or concerned: Get medical advice/attention.

P370+P378: In case of fire: Use ABC powder extinguisher to extinguish.

P501: Dispose of contents/container according to the separated collection system used in your municipality.

UFI: UNA0-N0V6-E00T-UGUN

### 2.3 Other hazards:

Product fails to meet PBT/vPvB criteria

Endocrine-disrupting properties: The product fails to meet the criteria.

\*\* Changes with regards to the previous version

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substance:

Non-applicable

### 3.2 Mixture:

Chemical description: Solvent/s

### Components:

In accordance with Annex II of Regulation (EC) No 1907/2006 (point 3), the product contains:

|   | Identification |                               | Chemical name/Classification   |             | Concentration |
|---|----------------|-------------------------------|--|-------------|---------------|
| CAS: 108-88-3<br>EC: 203-625-9<br>Index: 601-021-00-3<br>REACH: 01-2119471310-51-<br>XXXX |                | Toluene <sup>(1)</sup>        |  | ATP CLP00   |               |

### SECTION 4: FIRST AID MEASURES

### 4.1 Description of first aid measures:

Request medical assistance immediately, showing the SDS of this product.

### By inhalation:

Remove the person affected from the area of exposure, provide with fresh air and keep at rest. In serious cases such as cardiorespiratory failure, artificial resuscitation techniques will be necessary (mouth to mouth resuscitation, cardiac massage, oxygen supply, etc.) requiring immediate medical assistance.

- CONTINUED ON NEXT PAGE -

### SECTION 4: FIRST AID MEASURES (continued)

### By skin contact:

Remove contaminated clothing and footwear, rinse skin or shower the person affected if appropriate with plenty of cold water and neutral soap. In serious cases see a doctor. If the product causes burns or freezing, clothing should not be removed as this could worsen the injury caused if it is stuck to the skin. If blisters form on the skin, these should never be burst as this will increase the risk of infection.

### By eye contact:

Rinse eyes thoroughly with water for at least 15 minutes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, in which case removal could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS for the product.

### By ingestion/aspiration:

Request medical assistance immediately, showing the SDS of this product. Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. In the case of loss of consciousness do not administer anything orally unless supervised by a doctor. Rinse out the mouth and throat, as they may have been affected during ingestion. Keep the person affected at rest.

## 4.2 Most important symptoms and effects, both acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

### 4.3 Indication of any immediate medical attention and special treatment needed:

Non-applicable

### SECTION 5: FIREFIGHTING MEASURES

### 5.1 Extinguishing media:

### Suitable extinguishing media:

If possible use polyvalent powder fire extinguishers (ABC powder), alternatively use foam or carbon dioxide extinguishers (CO2).

### Unsuitable extinguishing media:

IT IS RECOMMENDED NOT to use full jet water as an extinguishing agent.

### 5.2 Special hazards arising from the substance or mixture:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

### 5.3 Advice for firefighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and self-contained breathing apparatus (SCBA). Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) in accordance with Directive 89/654/EC.

### Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Eliminate all sources of ignition. In case of fire, cool the storage containers and tanks for products susceptible to combustion, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures:

### For non-emergency personnel:

Isolate leaks provided that there is no additional risk for the people performing this task. Evacuate the area and keep out those without protection. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Above all prevent the formation of any vapour-air flammable mixtures, through either ventilation or the use of an inert medium. Remove any source of ignition. Eliminate electrostatic charges by interconnecting all the conductive surfaces on which static electricity could form, and also ensuring that all surfaces are connected to the ground.

### For emergency responders:

See section 8.

### 6.2 Environmental precautions:

This product is not classified as hazardous to the environment. Keep product away from drains, surface and underground water.

### SECTION 6: ACCIDENTAL RELEASE MEASURES (continued)

### 6.3 Methods and material for containment and cleaning up:

It is recommended:

Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. For any concern related to disposal consult section 13.

### Reference to other sections: 6.4

See sections 8 and 13.

### SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for safe handling:

A.- General precautions for safe use

Comply with the current legislation concerning the prevention of industrial risks. Keep containers hermetically sealed. Control spills and residues, destroying them with safe methods (section 6). Avoid leakages from the container. Maintain order and cleanliness where dangerous products are used.

B.- Technical recommendations for the prevention of fires and explosions

Transfer in well ventilated areas, preferably through localized extraction. Fully control sources of ignition (mobile phones, sparks,...) and ventilate during cleaning operations. Avoid the existence of dangerous atmospheres inside containers, applying inertization systems where possible. Transfer at a slow speed to avoid the creation of electrostatic charges. Against the possibility of electrostatic charges: ensure a perfect equipotential connection, always use groundings, do not wear work clothes made of acrylic fibres, preferably wearing cotton clothing and conductive footwear. Comply with the essential security requirements for equipment and systems defined in Directive 2014/34/EC (ATEX 100) and with the minimum requirements for protecting the security and health of workers under the selection criteria of Directive 1999/92/EC (ATEX 137). Consult section 10 for conditions and materials that should be avoided.

C.- Technical recommendations on general occupational hygiene

PREGNANT WOMEN SHOULD NOT BE EXPOSED TO THIS PRODUCT. Transfer in designated areas that comply with the necessary safety conditions (emergency showers and eyewash stations in close proximity), using personal protection equipment, especially on the hands and face (See section 8). Limit manual transfers to small amounts only. Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product (See subsection 6.3)

### 7.2 Conditions for safe storage, including any incompatibilities:

| Technical measures for | or storage |
|------------------------|------------|
| Minimum Temp.:         | 5 °C       |
| Maximum Temp.:         | 30 °C      |
| Maximum time:          | 24 Months  |

### B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

### Specific end use(s): 7.3

Α.

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 **Control parameters:**

Substances whose occupational exposure limits have to be monitored in the workplace (European OEL, not country-specific legislation):

Directive (EU) 2000/39, Directive 2004/37/EC, Directive (EU) 2006/15, Directive (EU) 2009/161, Directive (EU) 2017/164, Directive (EU) 2019/1831:

| Identification              | Occupational exposure limits |         |                       |
|-----------------------------|------------------------------|---------|-----------------------|
| Toluene                     | IOELV (8h)                   | 50 ppm  | 192 mg/m <sup>3</sup> |
| CAS: 108-88-3 EC: 203-625-9 | IOELV (STEL)                 | 100 ppm | 384 mg/m <sup>3</sup> |
| methanol                    | IOELV (8h)                   | 200 ppm | 260 mg/m <sup>3</sup> |

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)

Directive (EU) 2000/39, Directive 2004/37/EC, Directive (EU) 2006/15, Directive (EU) 2009/161, Directive (EU) 2017/164, Directive (EU) 2019/1831:

|              |               | Identification |              | lits |
|--------------|---------------|----------------|--------------|------|
| CAS: 67-56-1 | EC: 200-659-6 |                | IOELV (STEL) |      |

### DNEL (Workers):

|                |            | Short e                | exposure              | Long e                | xposure               |
|----------------|------------|------------------------|-----------------------|-----------------------|-----------------------|
| Identification |            | Systemic               | Local                 | Systemic              | Local                 |

### 8.2 Exposure controls:

A.- Individual protection measures, such as personal protective equipment

In accordance with the order of importance to control professional exposure (Directive 98/24/EC) it is recommended to use localized extraction in the work area as a collective protection measure to avoid exceeding the occupational exposure limits. In case of using personal protective equipment it should have CE marking in accordance with Directive 2016/425/EC. For more information on Personal Protective Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For additional information see subsection 7.1.

All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

B.- Respiratory protection

## DILUYENTE D-47 - Código - 50019

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)

| Pictogram                                    | PPE   | Labelling | CEN Standard  | Remarks   |
|--|---|-----------|---|---|
| Mandatory<br>respiratory tract<br>protection | Filter mask for gases,<br>vapours and particles |           | EN 149:2001+A1:2009<br>EN 405:2002+A1:2010<br>EN ISO 136:1998 | Replace when an increase in resistence to<br>breathing is observed and/or a smell or taste of the<br>contaminant is detected. |
| - Specific protection                        | n for the hands                                 |           |   |   |

| Pictogram                    | PPE   | Labelling | CEN Standard      | Remarks  |

### **Environmental exposure controls:**

In accordance with the community legislation for the protection of the environment it is recommended to avoid environmental spillage of both the product and its container. For additional information see subsection 7.1.D

### Volatile organic compounds:

With regard to Directive 2010/75/EU, this product has the following characteristics:

| V.O.C. (Supply):          | 100 % weight                          |
|---------------------------|---------------------------------------|
| V.O.C. density at 20 °C:  | 855,81 kg/m <sup>3</sup> (855,81 g/L) |
| Average carbon number:    | 3,91                                  |
| Average molecular weight: | 66,88 g/mol                           |

## DILUYENTE D-47 - Código - 50019

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES (continued)

Surface tension at 20 °C:

Non-applicable \*

Refraction index:

Non-applicable \*

\*Not relevant due to the nature of the product, not providing information property of its hazards.

### SECTION 10: STABILITY AND REACTIVITY

### 10.1 Reactivity:

10.5

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.

### 10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

### 10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

### 10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

| Shock and friction            | Contact with air | Increase in temperature | Sunlight              | Humidity                      |  |
|-------------------------------|------------------|-------------------------|-----------------------|-------------------------------|--|
| Not applicable Not applicable |                  | Risk of combustion      | Avoid direct impact   | Not applicable                |  |
| Incompatible materials:       |                  |                         |                       |                               |  |
| Acids                         | Water            | Oxidising materials     | Combustible materials | Others                        |  |
| Avoid strong acids            | Not applicable   | Avoid direct impact     | Not applicable        | Avoid alkalis or strong bases |  |

### Avoid strong acids Not applicable

### 10.6 Hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds.

### SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008:

The experimental information related to the toxicological properties of the product itself is not available

### **Dangerous health implications:**

In case of exposure that is repetitive, prolonged or at concentrations higher than the recommended occupational exposure limits, adverse effects on health may result, depending on the means of exposure:

A- Ingestion (acute effect):

- Acute toxicity : The consumption of a considerable dose can cause irritation in the throat, abdominal pain, nausea and vomitina.

- Corrosivity/Irritability: The consumption of a considerable dose can cause irritation in the throat, abdominal pain, nausea and vomiting.

- B- Inhalation (acute effect):
  - Acute toxicity : Exposure in high concentration can interfere with the central nervous system causing headache, dizziness, vertigo, nausea, vomiting, confusion, and in serious cases, loss of consciousness.

Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

- C- Contact with the skin and the eyes (acute effect):
  - Contact with the skin: Produces skin inflammation.
  - Contact with the eyes: Produces eye damage after contact.
- D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):
  - Carcinogenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for the effects mentioned. For more information see section 3.
  - IARC: Toluene (3); acetaldehyde (2B)

Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Reproductive toxicity: Suspected of damaging the unborn child.

### SECTION 11: TOXICOLOGICAL INFORMATION (continued)

- E- Sensitizing effects:
  - Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous with sensitising effects. For more information see section 3.
  - Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- F- Specific target organ toxicity (STOT) single exposure:

Its inhalation results in the risk of serious irreversible effects caused by a single exposure, excluding effects which are carcinogenic, mutagenic or toxic for reproduction.

G- Specific target organ toxicity (STOT)-repeated exposure:

- Specific target organ toxicity (STOT)-repeated exposure: Exposure in high concentration can interfere with the central nervous system causing headache, dizziness, vertigo, nausea, vomiting, confusion, and in serious cases, loss of consciousness.

- Skin: Based on available data, the classification criteria are not met. However, it does contain substances which are classified as dangerous due to repetitive exposure. For more information see section 3.

H- Aspiration hazard:

The consumption of a considerable dose can cause pulmonary damage.

### Other information:

Non-applicable

### Specific toxicology information on the substances:

| Identification | Acute toxicity  |                 | Genus       |
|----------------|-----------------|-----------------|-------------|
| Toluene        | LD50 oral       | 5580 mg/kg      | Rat         |
| CAS: 108-88-3  | LD50 dermal     | 12124 mg/kg     | Rat         |
| EC: 203-625-9  | LC50 inhalation | 28,1 mg/L (4 h) | Rat         |
| methyl acetate | LD50 oral       | 6482 mg/kg      | Rat         |
| CAS: 79-20-9   | LD50 dermal     | 18684 mg/kg     | Guinean pig |
| EC: 201-185-2  | LC50 inhalation | 75 mg/L (4 h)   | Rabbit      |
| methanol       | LD50 oral       | >5000 mg/kg     | Rat         |
| CAS: 67-56-1   | LD50 dermal     | 300 mg/kg       | Rabbit      |
| EC: 200-659-6  | LC50 inhalation | 3 mg/L (4 h)    | Rat         |

### 11.2 Information on other hazards:

Endocrine-disrupting properties: The product fails to meet the criteria.

### Other information

Non-applicable

- CONTINUED ON NEXT PAGE -2/2011 Revised: 02/03/2022

Endocrine disrupting properties

### SECTION 12: ECOLOGICAL INFORMATION

### 12.1 Toxicity:

### Product-specific aquatic toxicity:

|      | Acute toxicity    | Species        | Genus      |
|------|-------------------|----------------|------------|
| LC50 | 13,59 mg/L (96 h) | Non-applicable | Fish       |
| EC50 | 9,42 mg/L (48 h)  | Non-applicable | Crustacean |

### Substance-specific aquatic toxicity:

### Acute toxicity:

| Identification |      | Concentration      | Species                 | Genus      |  |
|----------------|------|--------------------|-------------------------|------------|--|
| Toluene        | LC50 | 5,5 mg/L (96 h)    | Oncorhynchus kisutch    | Fish       |  |
| CAS: 108-88-3  | EC50 | 3,78 mg/L (48 h)   | Ceriodaphnia dubia      | Crustacean |  |
| EC: 203-625-9  | EC50 | Non-applicable     |                         |            |  |
| methanol       | LC50 | 15400 mg/L (96 h)  | Lepomis macrochirus     | Fish       |  |
| CAS: 67-56-1   | EC50 | 12000 mg/L (96 h)  | Nitrocra spinipes       | Crustacean |  |
| EC: 200-659-6  | EC50 | 530 mg/L (168 h)   | Microcystis aeruginosa  | Algae      |  |
| methyl acetate | LC50 | 320 mg/L (96 h)    | Pimephales promelas     | Fish       |  |
| CAS: 79-20-9   | EC50 | 1026,7 mg/L (48 h) | Daphnia magna           | Crustacean |  |
| EC: 201-185-2  | EC50 | 120 mg/L (72 h)    | Scenedesmus subspicatus | Algae      |  |

### **Chronic toxicity:**

| Identification             | Concentration |            | Species         | Genus      |
|----------------------------|---------------|------------|-----------------|------------|
| methanol                   | NOEC          | 15800 mg/L | Oryzias latipes | Fish       |
| CAS: 67-56-1 EC: 200-659-6 | NOEC          | 122 mg/L   | Daphnia magna   | Crustacean |

### 12.2 Persistence and degradability:

| Identification | De       | egradability   | Biod            | egradability |
|----------------|----------|----------------|-----------------|--------------|
| Toluene        | BOD5     | 2,5 g O2/g     | Concentration   | 100 mg/L     |

### 12.5 Results of PBT and vPvB assessment:

Product fails to meet PBT/vPvB criteria

12.6 Endocrine disrupting properties:

Endocrine-disrupting properties: The product fails to meet the criteria.

### **12.7** Other adverse effects:

Not described

### SECTION 13: DISPOSAL CONSIDERATIONS

### **13.1 Waste treatment methods:**

| Code      | Description   | Waste class (Regulation (EU) No<br>1357/2014) |
|-----------|---|---|
| 08 01 11* | waste paint and varnish containing organic solvents or other hazardous substances | Dangerous                                     |

### Type of waste (Regulation (EU) No 1357/2014):

HP3 Flammable, HP5 Specific Target Organ Toxicity (STOT)/Aspiration Toxicity, HP6 Acute Toxicity, HP10 Toxic for reproduction, HP4 Irritant — skin irritation and eye damage

### Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC). As under 15 01 (2014/955/EC) of the code and in case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. Waste should not be disposed of to drains. See paragraph 6.2.

### **Regulations related to waste management:**

In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH) the community or state provisions related to waste management are stated

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

### SECTION 14: TRANSPORT INFORMATION

### Transport of dangerous goods by land:

With regard to ADR 2021 and RID 2021:

### SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture: Candidate substances for authorisation under the Regulation (EC) No 1907/2006 (REACH): Non-applicable Substances included in Annex XIV of REACH ("Authorisation List") and sunset date: Non-applicable Regulation (EC) No 1005/2009, about substances that deplete the ozone layer: Non-applicable Article 95, REGULATION (EU) No 528/2012: Non-applicable

- CONTINUED ON NEXT PAGE -

### SECTION 15: REGULATORY INFORMATION (continued)

REGULATION (EU) No 649/2012, in relation to the import and export of hazardous chemical products: Non-applicable

### Seveso III:

| Section | Description   | Lower-tier<br>requirements | Upper-tier<br>requirements |
|---------|---|----------------------------|----------------------------|
| H3      | STOT SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE | 50                         | 200                        |
| P5c     | FLAMMABLE LIQUIDS                                     | 5000                       | 50000                      |

# Limitations to commercialisation and the use of certain dangerous substances and mixtures (Annex XVII REACH, etc ....):

Contains more than 0.1 % of Toluene by weight. Shall not be placed on the market, or used, as a substance or in mixtures in a concentration equal to or greater than 0,1 % by weight where the substance or mixture is used in adhesives or spray paints intended for supply to the general public.

Shall not be used in:

—ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays,

-tricks and jokes,

-games for one or more participants, or any article intended to be used as such, even with ornamental aspects.

### Specific provisions in terms of protecting people or the environment:

It is recommended to use the information included in this safety data sheet as a basis for conducting workplace-specific risk assessments in order to establish the necessary risk prevention measures for the handling, use, storage and disposal of this product.

### Other legislation:

The product could be affected by sectorial legislation

### 15.2 Chemical safety assessment:

The supplier has not carried out evaluation of chemical safety.

### SECTION 16: OTHER INFORMATION \*\*

### Legislation related to safety data sheets:

The SDS shall be supplied in an official language of the country where the product is placed on the market. This safety data sheet has been designed in accordance with ANNEX II-Guide to the compilation of safety data sheets of Regulation (EC) No 1907/2006 (COMMISSION REGULATION (EU) 2020/878).

### Modifications related to the previous Safety Data Sheet which concerns the ways of managing risks.:

COMMISSION REGULATION (EU) 2020/878

Substances that contribute to the classification (SECTION 2):

Removed substances methyl acetate (79-20-9) methanol (67-56-1)

Toluene (108-88-3)

CLP Regulation (EC) No 1272/2008 (SECTION 2, SECTION 16):

Pictograms

Hazard statements

### Texts of the legislative phrases mentioned in section 2:

H225: Highly flammable liquid and vapour.

- H315: Causes skin irritation.
- H319: Causes serious eye irritation.
- H370: Causes damage to organs (Inhalation).

H336: May cause drowsiness or dizziness.

H373: May cause damage to organs through prolonged or repeated exposure.

H304: May be fatal if swallowed and enters airways.

H361d: Suspected of damaging the unborn child. H302+H312+H332: Harmful if swallowed, in contact with skin or if inhaled.

### Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the

individual components which appear in section 3

### CLP Regulation (EC) No 1272/2008:

\*\* Changes with regards to the previous version

### DILUYENTE D-47 - Código - 50019

### SECTION 16: OTHER INFORMATION \*\* (continued)

Acute Tox. 3: H301+H311+H331 - Toxic if swallowed, in contact with skin or if inhaled. Asp. Tox. 1: H304 - May be fatal if swallowed and enters airways. Eye Irrit. 2: H319 - Causes serious eye irritation. Flam. Liq. 2: H225 - Highly flammable liquid and vapour. Repr. 2: H361d - Suspected of damaging the unborn child. Skin Irrit. 2: H315 - Causes skin irritation. STOT RE 2: H373 - May cause damage to organs through prolonged or repeated exposure. STOT SE 1: H370 - Causes damage to organs. STOT SE 3: H336 - May cause drowsiness or dizziness. Advice related to training: Training is recommended in order to prevent industrial risks for staff using this product and to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product. \*\* Changes with regards to the previous version

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation at European and state level, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified. - END OF SAFETY DATA SHEET -
